I 20 -series

Give your promotions real stopping power with the 20 series stretched displays from iiyama.

With a continuous 24/7 operating time, landscape and portrait orientation, 1000cd/m² brightness and 1/3 height compared to a standard display, the stretched displays can be used in situations where regular 16:9 ratio signage display just won't fit.

Ideally suited for retail, transportation, business and health care environments where visibility is key. Available in 28" and 38".

![iiyama professional displays]

I 42 -series

iiyama offers a Smart Display Module in these slim bezel, 500cd/m² brightness displays, which can be operated 18/7 in landscape and portrait orientation.

Thanks to Android 8.0 you can easily customize the displays by directly installing applications, which makes them perfect for Digital Signage and In-store communication. Ideally suited for retail, and data transportation.

These displays come with N-Sign, the powerful, intuitive and scalable Smart Digital Signage solution. Use rich content like video's and widgets to create impactful advertising in minutes and schedule your content across multiple displays.

To make this range even more complete, there is an optional Wi-Fi module available. Upgrade the 42 series to super high speed 802.11ac Wi-Fi and enjoy streaming video and data.
