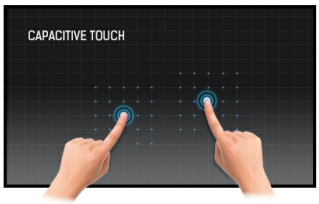
21.5” Full HD PCAP 10pt interactive Touch Panel PC with Android OS and edge-to-edge glass design

The ProLite TW2223AS-B1 interactive Touchpanel-PC with an elegant edge-to-edge glass design is a perfect choice for high-use environments. This monitor can operate in landscape, portrait and face-up orientation in 24/7 operating time. Thanks to the pre-installed Android 12 operating system, it is possible to easily customize the monitor by installing applications directly to it. In combination with the 16GB storage, Wi-Fi connection, LAN (RJ45) and Bluetooth connectors, it makes the monitor especially suited for POS systems or information points in retail shops to educate customers about your products, as well as virtually limitless smart home applications.



Touch technology - Capacitive

This technology uses a sensor-grid of micro-fine wires integrated into the glass that covers the screen. Touch is detected because electrical characteristics of the sensor grid change when human finger is placed on the glass. Thanks to the glass overlay this technology is highly durable, and the touch function remains unaffected even if the glass is scratched. It offers perfect picture performance and will work with human finger (also latex gloved) and stylus-pen.

Android OS

Thanks to Android OS, you can easily customize the display to your needs by installing applications directly to it.
