

Providing instant WiFi access for the Android and Slot PC features and effortless cross-platform streaming from any device directly to the screen with the ScreenSharePro app.

This WiFi Module with 2.4GHz/5GHz dual bandwidth, together with the ScreenSharePro app helps you to transform your team meetings or lessons into an easy, fast and seamless cross-platform collaboration session. Set as a public hotspot, to let any notebook, tablet or phone get online, when the Interactive display is connected to the Internet. Users can directly push their content from their device onto the screen and with Bluetooth 5.0 you can easily transfer files and data.

The OWM002 is included for the 04-series professional interactive large format displays.

To use ScreenSharePro's full feature set, users should install it on their devices. For simple streaming Miracast, AirPlay and Chromecast are compatible. Maximum of 4 users can be connected at the same time. To download the ScreenSharePro app click [here](#).
